

MCRSP1-27K18GLD

1.2W 2700K Warm White Gold
Quicklink: Q6D31

General

Colour	Gold
Construction	Aluminium
Dimmable	Yes

Dimensions

Cut Out	14mm (Diameter)
Diameter	17mm
Recessed Depth	16mm

Electrical

Maximum Wattage	1.2W
Voltage	24V DC

Light Characteristics

Beam Angle	18°
Colour Rendering Index	90
Colour Temperature	2700K Warm White
Lumens	78 lm
Lumens Per Watt	65 lm/W

The FLX Micro MCR range of miniature lighting designed for furniture, showcases, and museums. Our super-slim design makes it ideal for under cabinet and display to enhance your display with precision and elegance. Operating on a constant voltage DC 24V driver, these lights ensure consistent and reliable performance.

Available in gold or sleek black, our lighting solutions blend seamlessly with diverse interior designs. The versatility of our fixtures extends to various beam angles allowing you to create the perfect ambiance for your space.

Incorporating the latest technology, our lights are dimmable, providing you with control over the intensity of illumination. Elevate your displays and showcase your collections with our sophisticated and functional miniature lighting.

Key Features

- Lamp life: 50,000hr / 70%
- Operating Temperature Ranges: 0-45°C (32-113°F)
- Dimming with Feelux interface PWM/0-10V/DALI/PHASE/DMX512/WIRELESS
