

## PIKO-45 END CAP

Grey

Quicklink: Q6D36

### General

Construction

Plastic

The **Piko-45 End cap** is used in conjunction with the *Piko-45*.

Its purpose is to seal up the furthest end of the extrusion to ensure small objects such as dust cannot enter the fitting to interfere with the electrical components inside.

Only 1 endcap is required for each circuit of Tapelight. This means that if you buy 2 x 2m of extrusion, you would only need an endcap on the final piece.
