Elevate your space with the Red & Green Laser Star Projector, a powerful lighting solution that creates stunning starry sky effects using 16 unique laser patterns. Whether you're decorating your garden, patio, living room, or setting the mood for a party, this projector delivers vibrant red and green laser beams in swirling, spiral, and burst formations.

With multiple lighting modes—static, fade, flash—and an Auto mode that randomly cycles through all 16 patterns, you can enjoy a constantly changing light show. Choose between red only, green only, or combined red & green projections to suit your theme.

The integrated Bluetooth speaker lets you stream music directly from your smartphone, while the sound-activated mode syncs the laser effects to the beat for a fully immersive experience. Built for year-round use, the unit features a durable aluminium housing, IP65 waterproof rating, and plug-and-play installation for effortless setup indoors or outdoors.

Includes a mains plug transformer for powering a single Laser Spike light.

Please Note: This transformer must be enclosed within a waterproof outdoor enclosure.

Features

- 48 Laser Projection Patterns – Includes starburst, spiral, concentric circles, and linear dot effects. 16 in Red + 16 in Green + 16 in Both
- Auto Mode – Randomly cycles through all patterns for a dynamic display.
