Lighting Specialist Est. 1968

WIFIDRV 1C24V150

150W 24V (Constant Voltage)

Quicklink: Q6D9A

General

Dimmable Yes

IP Rating IP66

Dimensions

Height 78mm

Length 279mm

Width 25mm

Electrical

Maximum Wattage 150W

Voltage 24V

The Zonik Smart Driver WIFI and Bluetooth is an innovative wireless LED power supply, designed to transform the way we control our lighting systems via WiFi (up to 20m). This power supply allows users to effortlessly control their lights through the TUYA App and easily customize their lighting set-ups.

Control your lighting in sync with your music via the TUYA App. The app uses your device's microphone to detect the rhythm and synchronize the lights to the beat of the music. Ensure your lighting setup is connected to the same WiFi network as your phone. Play music from your preferred source (e.g., your phone, a Bluetooth speaker, or a sound system). The TUYA app will use your device's microphone to detect the rhythm and synchronize the lights to the beat of the music.
