HR-SLIM END CAP

Stainless Steel
Quicklink: Q6DBA

General

Colour	Stainless Steel
Construction	stainless steel

Dimensions

Depth	6.8mm
Height	10mm
Width	18.8mm

The **HR-Slim Recessed Endcap** is used in conjunction with the *HR-Slim profile*. Its purpose is to seal up the furthest end of the extrusion to ensure small objects such as dust cannot enter the fitting to interfere with the electrical components inside.

Only 1 endcap is required for each circuit of Tape light. This means that if you buy 2 x 2m of extrusion, you would only need an endcap on the final piece.
