The **Connectable LED String Christmas Lights** are designed for professional-quality Christmas and seasonal displays. Each set features 100 dual-colour LEDs spaced at 10 cm intervals along a 10-metre dark green PVC cable, providing bright illumination with uniform coverage.

Designed for flexibility, these lights include a multi-function controller offering various lighting effects to suit different decorative requirements. The connectable system allows multiple sets to be linked together, enabling extended runs for large-scale installations without compromising performance.

Key Features

- Length & LED Count: 30 metres with 300 dual-colour LEDs for bright illumination
- LED Spacing: 10 cm between LEDs.
- Connectable System: Easily link multiple sets for extended coverage. The battery can connect up to 4 sets of 10m
- With the timer function (8 hours on and 16 hours off) the lights can stay up to six weeks.
- Multi-Function Modes: Includes various lighting effects for versatile decoration and dynamic displays
- IP44 protection for safe outdoor installation.

These LED string lights are perfect for Christmas trees, outdoor façades, garden décor, shop windows, and event lighting, offering festive and seasonal decorations.

Please note, Please note, this fitting comes complete with 3 x 10m string + Battery + Remote + D CELL Batteries
