Dimensions

Depth	12mm
Length	2m
Width	36mm

The PDS-T-BOK LED profile by Klus Design is a recessed aluminium channel specifically designed to house an LED strip within walls or ceilings, most commonly in plasterboard (drywall) constructions. Its purpose is to allow lighting to be built neatly into the fabric of the interior, creating a clean, architectural look.

- Mounting to 12,5 mm - 0.50" drywall
- Dedicated for ceramic finishes and installation on the edges of moldings
- Stable mounting to a suspended ceiling
- Possibility of mounting sealed LED strips of the 8K series
