Width 10mm

Our simplest skirting board is part of the SQUARE family. **SX162** use this multifunctional profile to fit your entire home with the same skirting board. It is a thin, flat moulding with a square edge that can be used in a variety of ways.

- Modern dado rail
- Wall panelling
- Ceiling astragal mouldings
- Modern linear wall mouldings
- Window architrave
- Door architrave
- Skirting board
- Coving

All products have a matte primed surface, they are ready to paint. We advise to use water-based paint, and in case another type of finishing is used, we recommend prior testing. We are not responsible for the result after manipulation.
