240V

Light Characteristics

Beam Angle

180°

Give your LEDPRO floodlights a smart boost with this easy plug-in PIR and photocell sensor. It automatically turns your lights on when it detects movement and keeps them off during daylight to save energy. Designed to work with the LEDPRO range, it's weather-resistant, reliable, and ideal for adding extra security to gardens, driveways, or building entrances.

Key Features

- Powerful PIR controller for LEDPRO II Floodlights
- Pan and tilt feature
- Wide 180° detection angle with a 12m range (walk-across) and 4m range (walk-toward)
- Manual ON/OFF switching override
- Adjustable sensitivity
- Dusk to Dawn enabled
- Instructions and fixing accessories included
- IP65 rating for total protection against dust and low-pressure jets of water from any direction
