IS4N-32DC

4 Pole 32A Up to 1000V DC

Quicklink: Q6E4D

IS4N-32DC is a heavy-duty IP65/IP66 **DC Rotary Isolator Switch** designed for safely disconnecting DC circuits. Featuring a 4-pole, 32A switching capacity, a weatherproof thermoplastic enclosure, interlocked and lockable cover, and multiple M20 knockouts, it provides a robust and reliable means of isolating power in demanding commercial and industrial environment

General

IP Rating	IP65
Weight	350g

Dimensions

Depth	114mm
Height	1180mm
Width	100mm

Electrical

Amperage	32A
----------	-----

Key Features

- Large enclosure for easier wiring made from tough thermoplastic
- On-load switch disconnectors
- Interlocked front cover can only be removed from the OFF position
- Lockable switch to prevent tampering
- Multiple M20 cable entry knockouts on enclosure
- Warranty arc suppression time of under 5ms
- Rising clamp terminals with 16mm² Max. cable support
