The DIMAX 540 Plus B (5400130) is a compact in-line LED dimmer designed for smooth, flicker-free control of LED and incandescent lighting. Ideal for retrofit installations, it operates without a neutral, features fully encapsulated electronics, memory recall, and adjustable minimum brightness for optimal LED performance. Perfect for residential and commercial lighting upgrades where reliable, energy-efficient dimming is essential

Key Features

- Flush-mounted dimmer for R and C loads
 - Optimised settings for LEDs and incandescent lamps
 - No neutral conductor necessary
 - Small design, perfect for retrofitting
 - Completely encapsulated electronics
 - Temperature cut-off
 - Overcurrent cut-off
 - Short-circuit fuse
 - Memory function saves the most recently set light level value and then dims to this value the next time it is switched on
 - Function minimum brightness (10% in state of delivery, adjustable)
-
