The Selectric 5M-PLUS 2 Gang Switched Socket with dual USB Type-C ports combines modern functionality with a premium decorative finish. Its sleek screwless dark bronze plate, paired with matching curved-edge metal rockers and black inserts, delivers a refined, contemporary look suitable for any interior.

Offering 2× USB-C outputs at 3A (3.8A max), it provides fast, efficient charging for phones, tablets, and other devices – all while keeping both 13A sockets free for everyday use. The ultra-slim 5mm low-profile design, clip-on front plate, and integrated gasket ensure clean installation, durability, and compliance with BS 1363-2, BS 5733 & BS EN 60950-1.
