The Varilight MDJ160K V-Pro Micro Dual Push Control In-Line Dimmer Pack is a compact, high-performance LED dimming solution designed for modern lighting installations. Engineered for discreet in-line installation behind centre-off retractive (momentary) switches, it delivers smooth, flicker-free control for up to 160W of dimmable LED lighting.

Its silent trailing-edge technology ensures optimal compatibility with quality LED drivers, while multiway dimming capability makes it ideal for homes and commercial spaces needing flexible lighting control. This in-line LED dimmer is perfect for users seeking a hidden, reliable, and versatile LED dimming module for a clean, uncluttered

Key Feature

- Discreet in-line installation for a clean, hidden setup behind centre-off retractive switches.
 - Supports 0–160W of dimmable LED lighting, ensuring smooth, flicker-free performance
 - Silent trailing-edge dimming
 - Multiway dimming capability
-
