Light Characteristics

Beam Angle	15°
Colour Rendering Index	90
Colour Temperature	3000K Warm White
Lumens	1082 lm
Lumens Per Watt	155 lm/W

The Rigel 40 Fixed is a miniature, fire-rated downlight designed to deliver crisp, controlled illumination from an exceptionally compact, unobtrusive form.

Despite its small size, it provides a powerful lumen output with CRI 90+ for outstanding colour accuracy and clarity. Its fixed optic delivers a clean, consistent beam ideal for highlighting surfaces, features or creating subtle architectural accents throughout premium residential and commercial interiors.

This 15° narrow beam version offers a tighter, more focused light distribution, perfect for creating defined accents or spotlighting specific features with precision.

Built around a miniature integrated LED module, it requires no lamp replacement and ensures long life, consistent performance. The plaster-in housing allows the downlight to sit perfectly flush within the ceiling, creating a seamless, minimalist finish that blends effortlessly into the surrounding architecture. Its advanced anti-glare optical design ensures comfortable, controlled illumination, while the compact and smart plug and play construction makes installation straightforward.

Please note: This fitting requires a separate driver, available in the Linked Items section.
