Colour Rendering Index	90
Colour Temperature	2700K Warm White
Lumens	1082 lm
Lumens Per Watt	120 lm/W

The **Rigel 50 Adjustable** is a miniature, fire-rated downlight designed for precise, directional lighting in a compact, unobtrusive form. Despite its exceptionally small size, it delivers a powerful lumen output with CRI 90+ for outstanding colour accuracy and clarity. Its smooth adjustable tilt makes it ideal for highlighting walls, artwork, niches or architectural features, providing subtle yet effective accent lighting for premium residential and commercial interiors.

Built around a miniature integrated LED module, it requires no lamp replacement and ensures long-life, consistent performance. The plaster-in housing allows the downlight to sit perfectly flush within the ceiling, creating a seamless, minimalist finish that blends effortlessly into the surrounding architecture. Its advanced anti-glare optical design ensures comfortable, controlled illumination, while the compact and smart plug and play construction makes installation straightforward.

Please note: This fitting requires a separate driver, available in the Linked Items section.
