Quicklink: Q6EC4

General

Colour	White
Construction	Aluminium

Dimensions

Cable Length	1500mm
Height	29mm
Width	16mm

This mounting solution is designed for hanging LED fixtures and offers versatile installation options to suit different applications. It can be securely fixed to a surface using appropriately selected screws, mounted directly to a frame with the included countersunk screw, or attached to a cable using a grub screw. This flexibility ensures a neat, reliable installation across a wide range of lighting setups.

Please note, wire cable is not included and should be purchased separately. See linked items
