Enhance your indoor ambiance with our **Micro Quara Wall Lights**, designed for both functionality and aesthetic appeal. Crafted to illuminate indoor spaces with a warm white glow, these lights feature 1W LEDs boasting 3000K and a CRI of 90.

Protected with an IP65 rating, these lights are resistant to dust and water ingress, ensuring durability and reliability. Please note that the power supply driver is not included and needs to be ordered separately. Operating at a minimal power consumption of 1W, these lights come with a 1-meter-long power supply cable, offering flexibility in installation. Featuring a protection class III designation, they can be securely wall-mounted using a 20mm diameter hole in plasterboard or with the outer casing (sold separately) for concrete or masonry walls.

Quara serves as a stylish path-marker recessed wall light for indoor spaces. Encased in sleek aluminium, it emits a subtle light, ideal for accentuating the contours of staircases. Whether adorning private residences, hotels, or public areas, these lights elevate the ambiance with their understated elegance and functionality.
