The **LED 3 Circuit Track Floodlight** is an adjustable track mounted LED spotlight ideal for shop and office lighting. The LED floodlight gives a bright vibrant light and is more energy efficient than equivalent halogen floodlights. Its robust aluminium casing and IP65 rating make this fitting weather proof and durable. This fitting is not dimmable.

Three circuit track lighting is a versatile and flexible lighting system commonly used in commercial and residential spaces. The singularity of this lighting track system is that each of the three circuits can be wired and controlled independently, allowing you to have different lighting configurations in the same space. This means you can have multiple sets of lights on the same track, each set with its own switch or dimmer control.
