General

Colour	White
Construction	Aluminium

The Wall Washer Insert sits inside the Body Frame and is designed to spread light evenly across a vertical surface.

Uses a specialised optic to direct light smoothly down a wall, enhancing texture, colour and architectural features. Ideal for feature walls, artwork and creating a bright, uniform vertical glow.

This Insert should only be use with the 15 Beam Angle Lens

Configure your Rigel downlight step by step, with full flexibility to customise it to your needs.
