

Time Lag Switches

Pneumatic Time Delay Switch
80W LED

DS41A

80W LED

Quicklink: Q6F1E

The Timeguard DS41A is a reliable pneumatic time delay switch designed for controlling loads such as extractor fans where a run-on delay is required after switching off. Ideal for bathrooms, toilets and utility areas, it operates mechanically without the need for a neutral connection, making it perfect for retrofit installations. Simply push the button and turn the lights ON from 10 seconds to 10 minutes.
