General

Colour	Clear
Construction	Plastic

Easily connect your 10mm COB LED tape with this **L-shaped 2-pin connector**, designed for quick, secure, solder-free installation. Please note that this is a permanent connector; once installed, it cannot be removed.

The compact, clear design ensures a neat finish while allowing light to pass through with minimal obstruction. Simply insert the strips, align with the cut points, and clip firmly into place for a reliable connection.
