General

Colour	Clear
Construction	Plastic

Dimensions

Cable Length	150mm
--------------	-------

Easily extend your 10mm COB LED strip with this **2-pin link cable connector**, designed for quick, secure, solder-free installation. Ideal for bridging gaps or navigating obstacles, it allows flexible strip-to-strip connections without bending the tape. Please note that once installed, removing the connector may damage the LED strip.

The compact design ensures a neat finish, while the pre-wired cable provides a reliable connection between LED strips. Simply insert and clip into place for fast, hassle-free installation.
