Our new range of LED Panels features the latest in LED technology, a perfect lighting solution for commercial and retail environments. Led Panel 600 x 600mm is designed specifically to fit within a standard suspended ceiling or recesses, or it can also be suspended.

These panels offer a seamless integration with existing ceiling structures. The white aluminium frame adds a sleek and modern touch, enhancing the overall aesthetics of the space.

RGB + CCT panels combine vibrant colour-changing capabilities with adjustable white light temperatures, allowing you to switch seamlessly between a full spectrum of colours and tunable white tones ranging from warm to cool. This flexibility makes them perfect for creating both dynamic atmospheres and practical lighting conditions, adapting effortlessly to different moods, settings, and functional needs
