

LED Strip Tape Ultra Waterproof IP68 24V

LED Strip Flexible Tape Ultra Warm 10m IP68 (120xSMD 3528 LEDs/m) 24V
96W (9.6W/m) 3000K Warm White

TAPE600 10M 3K

96W (9.6W/m) 3000K Warm White
Quicklink: Q6F7E

General

Construction	Plastic
IP Rating	IP68

LED Chip	SMD 3528
LED per Tape	600

Dimensions

Cut Length	50mm
Height	4mm
Length	10m
Width	10.42mm

Electrical

Maximum Wattage	96W (10 x 9.6W)
Voltage	24V DC

Light Characteristics

Beam Angle	120°
Colour Temperature	3000K Warm White
Lumens	3800 lm
Lumens Per Metre	380 lm/m
Lumens Per Watt	40 lm/W
Watts Per Metre	9.6 W/m

LED Strip Flexible Tape is a versatile light source with a wide range of uses that can be either decorative or functional. Easy to install with pre-fitted double-sided backing tape and can be cut to a specific length.

Anything from a short linear run of light for under cabinet or plinth lighting, shelving or back lighting mirrors to large scale applications such as low level lighting in corridors, dropped ceilings, cove lighting, doorways, handrails and staircases can be achieved. A wide range of extrusions and diffusers are available to suit any location and produce different effects.

This LED tape also has a cut mark every 50mm, meaning you can achieve more precise lengths for your installation. We recommend using 1.5mm² cable. The maximum total length is 20 meters for the LED tape and power supply combined.

This LED tape is dimmable and we recommend using the Triac LED Dimming Driver. Ensure the dimming driver you use exceeds the total wattage of the LED Tape.

Please Note: A power cord is included with this product.
