Where warmth meets nature. Dalt pairs a softly aged gold frame with luxurious green marble, creating a sophisticated balance between metallurgic patina and organic stone. The opal glass diffuser sits nestled within, casting a gentle, diffused glow that brings out the subtle veining and depth of the marble whilst the warm 2700K light flatters skin and furnishings alike. This combination is distinctly elegant—the golden frame echoes jewellery-box luxury, whilst the green marble nods to natural materials and earthy sophistication. It's a pairing that feels collected rather than designed, as if you've curated it from across the globe. An G9 LED lamp is included with the fitting.
