General

Colour	White
Construction	Plastic

Dimensions

Length	140mm
Width	20mm

QuietAir QT100 Spacer Frame engineered to minimise installation depth, making it ideal for applications involving thin walls, compact shafts, or tight bends. Compatible with pullcord switch accessories and designed to allow multiple spacer frames to be connected as required.

The infill spacer frames fit together and can be placed on top of each other.

Fully compatible with the QuietAir QT100 fan.
