

MARINA6LL070B OG

6x2W 2500K Warm White | Olive Green
Quicklink: Q6FA9

General

Colour	Green
Dimmable	No
IP Rating	IP67

Dimensions

Cable Length	9m
Length	6400mm

Electrical

Maximum Wattage	12W (6 x 2W)
Voltage	240V

Light Characteristics

Colour Temperature	2400K Warm White
Lumens	1080 lm
Lumens Per Watt	90 lm/W

Six light points that define the space with balance and continuity. Marina6 Cherry with an olive green finish cable is the pendant lamp designed to blend naturally into outdoor environments, from the garden to the terrace and even the balcony. The distribution of the light points creates a diffused and welcoming illumination, ideal for social gatherings and outdoor relaxation.

The large-format lampshades, inspired by nautical buoys and organic shapes, enhance the visual presence of the composition and improve the quality of the light. The olive green cable echoes the tones of vegetation and naturally complements wood, stone, and outdoor materials, contributing to a harmonious and well-integrated result even in large spaces.

Designed for outdoor use, Marina6 Cherry features a waterproof structure with IP67 protection rating, resistant to rain, dust and variable weather conditions. The two rings at the ends simplify fastening, while the integrated Plug allows for quick installation.

The oversized Lampshades, inspired by the soft shapes of nautical buoys, transform the composition into a decorative element that draws the eye without being intrusive. The olive green brown tone of the Cord recalls natural materials and textured surfaces, working in harmony with wood, stone, terracotta, and warm-toned outdoor furnishings.

Specifications

- PVC cable with 6 mm diameter, UV resistant
- Lampshades in LLDPE with UV-resistant coating, 163 mm width, 198 mm height
- Light spacing 70 cm – total length of light chain 9.0 m
