Amperage	13
----------	----

The Niglon Hurricane H-BWS132R is a robust IP66-rated outdoor double socket featuring a 13A Type A 30mA RCD for enhanced electrical safety. Designed for demanding indoor and outdoor environments, it offers UV-resistant construction, double-pole switching, a lockable weatherproof enclosure, and eight 20mm knockouts for flexible installation. The socket remains protected against dust and water ingress when closed, making it ideal for gardens, workshops, commercial premises, and other exposed locations.

Features

- 13A
 - RCD Rating: 30mA - Type A - Passive (latching)
 - Knockouts: 8x20mm
 - Dimension: 115 x 175 x 69 mm
