

Tube Dimmable Integrated LED Track Lights

Tube Dimmable Honeycomb LED Track Light 3 Circuit 12W 20° Beam Angle

White 2700K Warm White

JFTK3TUBE20 W2H2

White 2700K Warm White

Quicklink: Q6FB9

General

Colour	White
Construction	Metal
Dimmable	Yes

Dimensions

Diameter	76mm
Head Length	151mm
Height	191mm

Electrical

Amperage	350mA
Maximum Wattage	12W
Voltage	240V

Light Characteristics

Beam Angle	20°
Colour Rendering Index	90
Colour Temperature	2700K Warm White
Lumens	1156 lm
Lumens Per Watt	96 lm/W

The **Tube Three Circuit Track Lights Range** fittings are 240V dimmable spotlights mainly used to highlight certain focal points. The fittings have a built in LED and a high lumen output, making them low energy and powerful light sources, ideal for commercial or residential use.

The fittings are positioned onto the surface or recessed three circuit track lighting system which can be mounted onto practically any surface. This allows you to move and change your light fittings around when you need to, without having to make any long term installations.

Three-circuit track lighting is a versatile and flexible lighting system commonly used in commercial and residential spaces. The singularity of this lighting track system is that each of the three circuits can be wired and controlled independently, allowing you to have different lighting configurations in the same space. This means you can have multiple sets of lights on the same track, each set with its own switch or dimmer control.
