Plug and Play Garden Light Configurator The LED Hood range of path fittings is a stylish and discrete way to illuminate the pathways of your garden. Designed with a curved gooseneck and an angled, downward-facing hooded head, this fitting directs the light precisely onto the ground, ensuring safe passage and beautiful illumination for your garden trails. This focused, hooded design provides precise illumination while minimizing upwards light spill and glare.

The simple plug-and-play low-voltage system makes installation completely DIY-friendly—no complex wiring or electrician required. Just spike, connect, and enjoy.

The only drivers compatible with these products are the LEDHOOD TF12/20, and the LEDHOOD TF12/60, and the LEDHOOD TF12/80
