

NDF-EXL-90

Black 90° Connector

Quicklink: Q703C

The **90 Degree Connector** for NDF-EXL allows two NDF Extrusion Line sections to be joined at a right angle, making it easy to create corners and custom lighting layouts. Designed for a precise fit, it creates a seamless transition between profiles and maintains a clean architectural appearance. Easy to install, it simply connects the extrusion sections for a fast and professional finish.
