Fluorescent T5

Slimlite Fluorescent T5

4000K Cool White 21W

FL21T5 SYL COOL

4000K Cool White 21W

Quicklink: Q7059

General

Cap	T5
Construction	Glass
Dimmable	Yes

Dimmable	Yes

Electrical

Energy Efficiency Rating	A
Maximum Wattage	14W

Light Characteristics

Colour Rendering Index	85
Colour Temperature	2200K Warm White
Lumens	1230 lm
Lumens Per Watt	88 lm/W

Fluorescent T5 lamps come in a smaller size than T8 fluorescent lamps and provide big lumen output for visual comfort and performance. With many wattages to choose from, you can either maximise your lumen output or your efficiency. The quality, along with their outstanding energy efficiency, make them ideally suited for lighting large open areas such as offices, public buildings, warehousing, industry and supermarkets.

Coloured tubes are white when turned off.

Lamp Features

- 38% less glass and phosphors than T8 lamps which means reduced waste in landfills
- Lead free product
- Low mercury content
- Less lamps are needed to maintain same lumen output due to the high output design
- ROHS compliant and contains recyclable components
