Focus LED GU10 6W 600lm Dim to Warm CRI90 Dimmable Lamp
15° 2000K-3000K Warm White

3/2 GU106W15D

15° 2000K-3000K Warm White
Quicklink: Q7065

Illuminate your space with brilliance as our high-lumen lamps deliver a remarkable blend of brightness and colour rendering. **Focus GU10 light bulbs** are designed to elevate your lighting experience, our GU10 range is available in various beam angles, allowing you to tailor the perfect ambiance for any setting.

The effect known as Warm Dimming does not have anything to do with the actual heat or physical warmth of the bulb, it is when an LED bulb's colour temperature lowers when dimmed. The lower the brightness the warmer the colour. This is a natural replication since at sunset the sky appears more warm in color, which puts our minds in a different gear and helps transition us to the night-time. Many incandescent and halogen bulbs naturally have this effect, yet are inefficient. When the Lamps dim, they retain their high efficency, yet still produce the relaxing and comforting feel of an appealing "warmer" glow.

Discover the perfect ratio of value and performance with our LED High Lumen GU10 range – where superior lighting meets affordability.

General

Cap	GU10
Colour	White
Construction	Plastic
Dimmable	Yes

Dimensions

Diameter	50mm
Length	59mm

Electrical

Energy Efficiency Rating	F
Maximum Wattage	6W
Voltage	240V

Light Characteristics

Beam Angle	15°
Colour Rendering Index	90
Lumens	600 lm
Lumens Per Watt	100 lm/W
