2700K Warm White 21W
Quicklink: Q1420

General

Cap	T5
Construction	Glass
Dimmable	Yes

Dimmable Yes

Dimensions

Diameter	16mm
Length	849mm

Electrical

Energy Efficiency Rating	A
Maximum Wattage	21W

Light Characteristics

Colour Temperature	2700K Warm White
Lumens	1910 lm
Lumens Per Watt	91 lm/W

Fluorescent T5 lamps come in a smaller size than T8 fluorescent lamps and provide big lumen output for visual comfort and performance. With many wattages to choose from, you can either maximise your lumen output or your efficiency. The quality, along with their outstanding energy efficiency, make them ideally suited for lighting large open areas such as offices, public buildings, warehousing, industry and supermarkets.

This lamp is 863mm in length from pin to pin.

Lamp Features

- 38% less glass and phosphors than T8 lamps which means reduced waste in landfills
- Lead free product
- Low mercury content
- Less lamps are needed to maintain same lumen output due to the high output design
- ROHS compliant and contains recyclable components
