Lens LED Triple Spot
3000K Warm White 6°

LED LENS3-6D W/W

3000K Warm White 6°
Quicklink: Q14CC

General

Colour	Clear
Dimmable	Yes
IP Rating	IP00

Dimmable Yes

Dimensions

Cut Out	46mm (Diameter)
Diameter	50mm
Height	26mm

Electrical

Amperage	350mA
Maximum Wattage	3W

Light Characteristics

Beam Angle	6°
Colour Temperature	3000K Warm White

The **Lens LED Triple Spot** is a versatile unit. It can be used separately or together with a light fitting. It has a 46mm cut out. It has three high power 1 watt LEDs.

This LED has three lens that produce a 6° angle of light.

Many different LED power supplies are available that allow you to achieve more with your lighting. Simply select the correct wattage depending on how many total LED fittings it will be connected to.

LED Driver Options

- LED Driver (Switching) - Use this driver for on/off control. Cannot be used for dimming.
 - LED Driver (Dimming) - For use with nearly all domestic dimming lighting. Most resistive dimmers have a minimum load of 60W, therefore ensure that if this not met, a dummy load is added to the circuit, such as a mains voltage halogen fitting.
 - LED Driver (1-10V) - For use with 1-10V dimmer modules or 1-10V control systems. This type of dimming does not have a minimum load.
 - Wise Chameleon (Dimming + Wireless) - This controller can be used for both switching and dimming. Additionally, this unit can communicate via radio and external push buttons, allowing you to wirelessly control your fitting. Note that an additional 24V LED driver is required to power the Wise Chameleon pack.
