

MR16 Halogen

Reflektó Halogen MR16
35W 36°

MR. RESISTOR[®]
Lighting Specialist Est. 1968

M281B REFLEKTO

35W 36°

Quicklink: Q155A

General

Cap	GU5.3 / MR16
Construction	Clear Glass
Dimmable	Yes

Dimmable	Yes
----------	-----

Dimensions

Diameter	50.7mm
Length	44.9mm

Electrical

Maximum Wattage	35W
Voltage	12V

Light Characteristics

Beam Angle	36°
Colour Temperature	2900K Warm White

The **Reflektó Halogen MR16** has a reflective aluminium coating applied to the inner surface of the lamp. This reflects heat and light away from the light fitting both protecting it and increasing its efficiency.

Low voltage halogen lamps produce a clean and crisp light versatile enough for a variety of applications but particularly suited to display lighting due to their close to natural colour rendering.

The **Reflektó Halogen MR16** lamp is fully dimmable.
