The **Wise Chameleon Master Outdoor Box** is an IP54 rated wall mounted box specifically designed to allow outdoor wireless colour change lighting. The box is small and discrete enough to be hidden away, while remaining durable enough to handle all forms of weather. The **Wise Chameleon Outdoor Box** contains a **Wise Chameleon Master** to control the 350mA output, and a driver meaning that the box can be wired straight to the mains.

Caution: The warm white produced by RGB products is not the same as the warm white produced by single coloured products. By mixing the colours to create warm white a hint of Red, Green, or Blue may appear.
