

Extractor Fan

On/Off Pull Cord Module 240V

ICONPCM

Quicklink: Q17333

General

Colour	White
Construction	Plastic
IP Rating	IP00

Electrical

Voltage	240V
---------	------

The **On/Off Pull Cord Module** allows you to turn your extractor fan on or off using the controller module and pull string that hangs from the fitting.

All modules are easily fitted. Simply remove the cover and snap in the module. The module is sculpted so that it fits into the current extraction fan housing, therefore giving you extra functionality without any ugly or bulky add on. It also allows you to add functionality to your Icon fan at a later date to any installation where it is currently installed.
