Inline

Electrical

Maximum Wattage 350W
Voltage 240V

The **DimSlim 0-10V Wireless Dimming Kit** includes all the main components needed to install fluorescent dimmable wireless lighting in your home.

*Please note; You **MUST** add the Dimslim lights and a wireless switch to complete this kit.*

The Kit

Includes a Dimslim power lead, 0-10V DimSlim interface and a WiseScene 0-10V dimming receiver.

Dimslim Lights

Add the length/wattage Dimslim fitting you require as well as a direct coupler or flexible coupler for each light added. You can connect a maximum of 10 Dimslim fittings.

Wireless Switch

Add a wireless switch to control the Dimslim. Press once to turn on/off. Hold to dim the Dimslim light fittings. You can add upto 16 wireless switches to one kit.
