|-----------------|------|
| Maximum Wattage | 50W  |
| Voltage         | 240V |

The **Contract Fire Fixed 240V** downlight does not require a firehood and is fire rated for up to 90 minutes.

These fire rated downlights have many features such as a centralisation ring to ensure a uniform air gap between the body of the fixture and the plasterboard, as well as a suction cup for easy lamp removal.

This fitting does not require a transformer, simply wire to mains supply.
