Dimmable	Yes
IP Rating	IP20

Dimensions

Cut Out	112 x 112mm (Length x Width)
Depth	115mm
Horizontal Rotation	45°
Length	102mm
Vertical Rotation	45°
Width	102mm

Electrical

Maximum Wattage	50W
Voltage	12V

The **Grid Trimless Single AR70** is an adjustable downlighter that can take up to a 50W lamp, which can be angled in any direction.

This product comes with a mounting ring which is designed to be fitted into the ceiling and plastered in before the light fixture is put into place. The downlighter fits into the hole in the ceiling and will rest on top of the mounting bracket. Once the light is fitted there will be no trim unlike the similar *Grid Range* of products.

This version takes a low voltage AR70 50W maximum lamp (available separately). If you wish to see detailed installation instructions, please click on the technical tab.
