RAUSB

Interface
Quicklink: Q18F1

General
Construction	Plastic
IP Rating	IP00
Radio Frequency	433.9MHz

Dimensions
Depth	50mm
Height	136mm
Width	36mm

Electrical
Voltage	5V DC

The **RAKO USB to RF Interface** is designed to operate with the RAKO PC Programming Software. This unit provides a wireless link from a PC running the software and this interface with any RAKO enabled receiver devices such as **RAKO Ceiling Dimmer Packs** or **RAKO Curtain/Blind Dual Relay Modules**.

PLEASE NOTE: RAKO PC Programming Software is not included with this product. A free USB1.1 or USB2.0 port is required on a PC running Windows 98SE or later. The interface also uses this for its required 5V dc input supply.
