The Wise Chameleon Slave is a $12V\ 150W\ /\ 24V\ 300W\ LED$ colour change controller and LED dimmer. It is used with any of the Wise Chameleon Master receivers. Different types of Wise Chameleon Slave can be connected together.

The slave communicates with the master receiver via a data cable (40cm length). The Slave stays synchronised with the master receiver.

Power Supply

The Wise Chameleon Slave requires a 12V or 24V DC power supply. Choose the wattage of the power supply that matches your load.

Caution: The warm white produced by RGB products is not the same as the warm white produced by single coloured products. By mixing the colours to create warm white a hint of Red, Green, or Blue may appear.
