Light Characteristics

Colour Temperature 3000K Warm White

The **Happy Pillar Pillar Box Single** is a square, wall mounted light fitting containing a GU10, colour changing, retrofit lamp. Rated IP65, the pillar light can be left outside or position into a bathroom to create an urban feeling. The Happy Pillar Box Single can be positioned to point upwards, downwards or even sideways.

Only one CCRGB remote is required to control all of the fittings. The remote does not change every fitting simultaneously, it is required that you set each fitting to your desired setting individually.

The powerful 5W LED lamp can then, via an infrared remote control, colour change your garden with features such as;

- 16 preset colours ready saved including white
- 4 different preset colour mixing modes. (Flash, Strobe, Fade, Smooth)
- 4 stages of dimming.
- Lock and unlock function.

Watch the astonishing results in amazement as your garden changes colour before your very eyes!

Key Features

- IR Infrared, No App required
- Remote controlled, no programming, just point and press
- No wifi required
- 16 Preset Colours
- 4 Different colour modes
- Dim up and down with remote
