TR51255 GRY

Silver 2 x 36W

Quicklink: Q1AC7

General

Cap	2G10
Colour	Silver
Construction	Aluminium / Polycarbonate
Dimmable	Yes
IP Rating	IP40
Weight	2.62kg

Dimensions

Depth	320mm
Height	45mm
Width	326mm

Electrical

Maximum Wattage	72W (2 x 36W)
Voltage	240V

The **Matrix** tram wire system fitting is constructed from aluminium. This double emission unit produces a strong light both upwards and downwards through a polycarbonate shade. Utilises compact fluorescent lamps to maximise energy efficiency.

This fitting requires two other products, 2 runs of **240V Single Mains Cable** and a **Fixing Kit with Wall Mains Supply**. The cable provides both power and suspension. The fixing kit includes tensioners and fixings to ensure the cable is taut and provides full support to the fitting. A mains supply box is included with the fixing kit to provide interface between your mains supply and the cable system. Two fixing kit versions are available, 35mm and 50mm. Please select the bigger sized version to support heavier fitting loads.

A maximum 1000W of fittings can be added to the cable. Additional accessories are available that allow customisation of your system for the requirements of the room in which it is being installed.

This fitting takes two 2G10 36W compact fluorescent lamps (included).
