Depth	32mm
Length	70mm
Plate Depth	2mm
Tube Length	72mm
Width	70mm

Electrical

Amperage	350mA
Maximum Wattage	3W

The **Pierrot Square** is a 3W, 350mA LED wall fitting that is used to light floors. It is ideally used to highlight walkways such as paths or corridors and due to its IP65 rating, can be used in bathrooms or outside.

Available in 4 colours, Warm White, Cool White, Blue, and colour changing and in a white finish, the Pierrot has a 50,000 hour life which means that maintenance such as lamp changing is now officially a thing of the past.

The colour changing fitting requires a Wise Chameleon to control the light fitting. A 7 button switch is used to select the colours.

A burial tube is included with the fitting.
