

Droplet LED

Droplet Wheel 350mA

Amber 1W

The **Droplet Wheel** is a modern and elegant decorative LED mini-light that can be recessed into walls and floors. Driven by just one high power Luxeon LED, it is designed to add style to floors, bars, walls and ceilings.

Walkover and IP68 rated, allowing installation almost anywhere, the clever and stylish design of the light output at 45° also means no glare even when looking directly at it, making this product perfect for stair facings. Power consumption is just 1 watt, making the running costs incredibly low, whilst visual impact is high. Maintenance free as no lamps need to be changed.

Please note; this product requires a 350mA driver and must be wired in series.

LED Driver Options

- Switching - Use this driver for on/off control. Cannot be used for dimming.
- Dimming - Normal - Use this driver for dimming control. Some dimmers may require a resistive dummy load to meet the minimum load requirements.
- Dimming - 1-10V - Use this driver with a 1-10V dimmer modules or control systems. This type of dimming does not have a minimum load.

ML01 AMBER

Amber 1W
