### General

Colour	Black
Construction	Plastic
Dimmable	No

### Dimensions

Diameter	93mm
Height	105mm
Width	145mm

This **Transformer Enclosure** is used in conjunction with our *LED Drivers* to secure it to surfaces. They also protect the driver and enclose the live terminals, making it a necessary purchase where the driver may be exposed. Two holes are drilled either side of the enclosure for wiring.

Not suitable for use outdoors.
