

TI610126 BLACK

50W Black
Quicklink: Q1C57

General

Cap	GU5.3 / MR16
Colour	Black
Construction	Die-Cast Aluminium
IP Rating	IP55

Dimensions

Depth	145mm
Horizontal Rotation	356°
Length	70mm
Vertical Rotation	112°
Width	128mm

Electrical

Maximum Wattage	50W
Voltage	240V

The **IP55 with Transformer** multi-directional spotlight is constructed from die-cast aluminium and is suitable for use inside and outside the home. Ideal for highlighting and primary lighting of paths, patios, gardens and hallways.

The fitting has front fins for heat dissipation and sealing gaskets covered with thermoinsulating material (for adequate adjustment of the light beam, even when the projector is turned on). The shield is heat treated with clear safety glass. The head can be adjusted, with a horizontal rotation of up to 356° and a tilt up to 112°.

A toroidal transformer is located in the base of the fitting which is heat insulated from the optical compartment to allow low voltage lamps to be used. Simply wire the fitting to mains supply. The total weight is 0.90Kg. A low voltage 50W halogen lamp is available separately.
