

TE610210 WHITE

50W White  
Quicklink: Q1C5A

General

Cap	GU5.3 / MR16
Colour	White
Construction	Die-Cast Aluminium
IP Rating	IP55

Dimensions

Horizontal Rotation	356°
Length	70mm
Vertical Rotation	112°
Width	128mm

Electrical

Maximum Wattage	50W
Voltage	12V

The **IP55 without Transformer** multi-directional spotlight is constructed from die-cast aluminium and is suitable for use inside and outside the home. Ideal for highlighting and primary lighting of paths, patios, gardens and hallways.

The fitting has front fins for heat dissipation and sealing gaskets covered with thermoinsulating material (for adequate adjustment of the light beam, even when the projector is turned on). The shield is heat treated with clear safety glass. The head can be adjusted, with a horizontal rotation of up to 356° and a tilt up to 112°.

A transformer must be purchased separately and recessed in the wall behind the fitting. The total weight is 0.67Kg. A low voltage 50W halogen lamp is available separately.
